

Week 6 Assessment:

1. Do people need to have an Onshape account in order to be on an Onshape Team?
2. What is a Derived Part, and why is it used?
3. In the first sketch of the Bluetooth Speaker, we used the small speaker to locate one of the circles. Why did we do this?
4. Can multiple people work on the same Part Studio at the same time?
5. Name and describe two collaboration tools in Onshape used for communication.
